This scholarship will be granted to students with the best transcripts who have grade point averages starting at 8.5 out of 10, which is the weighted grade between the Secondary School and the mandatory University Access Exams (PAU) (the grade earned in the specific subjects of the PAU exam will be taken into account if there is a tie in the other requisites).

Three scholarships are reserved for students with the best transcripts from International Baccalaureate.

IQS offers certain tuition discounts for students who meet the following requirements:

For students from large families or single-parent families, a 5% tuition discount on the amount of the enrolment fee as long as applicants meet this condition. The renewal is automatic as long as the student's large family card remains valid.

These scholarships are sponsored by:

### Second child enrolled at IQS:

For students with a sibling who is studying an Undergraduate or Master's Programme at IQS, a 5% tuition discount is applied to the second child as long as the first child is studying at IQS. If twins are studying in the same academic year, this tuition discount is applicable to both.

These discounts are not compatible with any other type of scholarship, cannot be accumulated between each other, and are only valid for students who meet some of the special conditions indicated previously and verify them when enrolling. These discounts are not applicable to the Undergraduate Programme in Pharmacy Studies.

The percentages are applied for an amount of a 60 ECTS course based on the price of €203/ECTS.
