# About

Facing the new challenges COVID-19 outbreak has put on us, 2020 Summer Program edition has adopted an online format.

IQS offers a two weeks summer program, where students will have the opportunity to learn and develop their skills in three crosscutting fields designed to empower their professional competences.

Designed to meet their needs and interests, Students choose 2 or 3 modules among our offer and will therefore obtain 6 or 9 ECTS (transferable to their home university). Being in contact with other students worldwide, IQS Summer Program participants will have the opportunity to make new international friends and develop their competences in an online scenario.

IQS International Relations and Student Life office will organize complementary activities in order to ensure getting to know each other and empower group building to have the group ready to face online learning activities of modules.

# Modules

## **Innovation & Entrepreneurship**

In this crash-course on innovation and entrepreneurship students embark on a journey that takes them from a business idea to the development of a successful business plan.

## **Cross-cultural Management with a Global Perspective**

A course to increase your effectiveness when interacting with people from other countries. At the end of the course you will be able to recognize, understand and take advantage of the most significant cultural differences in business and at the workplace.

## **Sustainability & Social Thinking**

Climate change, degradation of ecosystem services, pollution, poverty, inequality, human trafficking, artificial intelligence and the future of work. This course examines some of the most pressing challenges of our times and how ethics and social thinking can assist individuals, companies and governments with frameworks for their solutions.
