Industrial Engineering studies started in 2000-2001. The program (*Plan 2003*, 5 years program) appeared in 2003-2004 academic year and introduced few modifications in relation to the *Plan 2000*. The new program (*Plan 2010*) started in the 2010-2011 academic year, in order to introduce the new European Guidelines of Bologna. It is based on a period of four years for the Degree and of two years for the Master (see <https://www.iqs.url.edu/en/industrial-engineering-technology:342>).
